

Hi Safe Solutions (HSS) in partnership with **IRCA Global** works to provide *HWSETA accredited* OHSE training courses. Courses are specifically designed to address typical risks OHSE personnel must often deal with. The courses incorporate international standards and practices and are presented by certified and accredited facilitators with years' experience. Registered and Accredited Assessors and Moderators assess all process outcomes.

Courses presented range from basic shop floor training aimed at the workforce, to highly technical, specialist modern risk assessment techniques for functional specialists. All training is presented in public course forums, as well as in-house for organisations that require inclusion of their own standards, logos etc.

TRAINING COURSE CATEGORIES

TAB	REFERENCE	COURSE CATEGORIES
1	AU	Auditing
2	RA	Risk Assessment
3	OH	SHEQ Management
4	IA	Incident Analysis
5	LL	Legal Liability
6	EN	Environmental
7	GC	General
8	SP	Skills Programmes
9	ORMM	Education
10	PC	Partnership Courses

Reference	Auditing	Duration
AU 01 - 1	Common Audit Process (CAP™) Awareness Course (CAPAC)	2 days
